PERFECTION TAKES NO STANDARD FORM

Riding pleasure begins well before you actually climb onto your motorcycle. It begins with anticipation, inspiration, and a feeling of being safe while suiting up for the next ride. That's why BMW Motorrad created the C.A.R.E. stamp of approval. C.A.R.E. stands for Concept of Advanced Rider Equipment, and represents an unwavering commitment to **safety, innovation, comfort** and **quality**.

These elements form the foundation of any BMW Motorrad rider's equipment. Whether we're talking about the new, hard-wearing materials developed by a dedicated R&D team, the sophisticated design elements that increase both protection and comfort, or the testing methods devised and employed in-house, the highest standards are applied from start to finish.

All our products are the result of years of research and development and only receive the C.A.R.E. seal of approval when they meet BMW Motorrad's exacting standards. We want you to enjoy riding your motorcycle—and that doesn't just mean meeting standards. It means surpassing them, in everything we do.

Find out more at
bmw-motorrad.com/care

SAFETY

Safety is paramount when you are riding a motorcycle. This applies to both the bike itself as well as its rider's protective clothing. Motorcyclists are directly exposed to all external conditions, both positive and negative. Consequently, we have made this principle one of the basic C.A.R.E. criteria we take into account when we develop our rider's equipment. From rider's boots to gloves—there is almost no detail we have not developed and tested with road safety in mind.

In this process, we focus mainly on the compatibility of individual items. Regardless of whether you are wearing a BMW Motorrad jacket, or if you are combining various products, every single equipment item must work together as a unit and provide comprehensive rider protection.

The material in the impact areas of any jacket, pants and suit is reinforced, features double stitching and the most recent version of CE protectors. Therefore, the equipment copes with everyday motorcycling demands as well as the most severe impacts on tarmac or gravel without restricting rider's freedom of movement.

BMW Motorrad has one objective in mind, from material to processing and crucial testing: actively and passively protecting motorcyclists in any situation to make sure they enjoy a carefree riding experience. That's what we call BMW Motorrad safety.

INNOVATION

Innovation has been at the heart of BMW Motorrad since it was established in 1923. We've also led the way in the development of rider equipment since the mid-seventies. We've invested years of research, development and testing to create solutions that meet wide-ranging requirements for clothing designed for motorcycle riding, with the aim of making the best even better. For example, we developed the ground-breaking BMW Climate Membrane, which combines high water resistance (with a minimum 10,000-mm water column) with incredible breathability. Combining unprecedented damping properties with maximum comfort, our continually upgraded NP protectors are prime examples of why BMW Motorrad rider equipment is at the forefront of innovation. Added safety also always plays an important role.

C.A.R.E. is a promise to our customers that our products will always remain at the cutting edge of safety, quality and comfort.

COMFORT

Just like safety, comfort is a crucial factor in the development of rider's equipment. Ultimately, it's about providing maximum passive protection while ensuring riders are not distracted by anything they are wearing.

For this reason, BMW Motorrad clothing is designed with innovative ventilation and membrane systems. Feeling good at any temperature and in any weather is the only way to guarantee riders' ability to react quickly to events on the road.

BMW Motorrad jackets, suits, pants, boots and gloves don't just look good – they're in a class of their own when it comes to practicality. We strive to set new standards in everything we do. Whether it's the collar, the sleeves or the cuffs – we're meticulous about every part of every garment, no matter how big or small.

QUALITY

Take your time on tours and you will have a great time! For this reason, we cover countless test miles on the road to identify any potential weaknesses of our products. We know that any BMW Motorrad rider's equipment is often used for many years and for trips of many thousand miles.

There are no statutory requirements for quality and durability, which is why we have developed our own standards and specifications. And we consistently hold to these standards. As a manufacturer of rider's equipment, BMW Motorrad operates its own laboratory to thoroughly test development methods, materials and finished products.

There is basically nothing that is not pushed to its limits by shaking it, scraping it or pulling on it. As a result, you're unlikely to find the same level of quality anywhere else.

C.A.R.E. STANDARDS: A COMPARISON

SAFETY

TEST CRITERIA	STANDARD	C.A.R.E. STANDARD
Impact absorption	Materials must offer a minimum resistance of 100 N/cm². (DIN EN ISO 13937-2:2000; tear resistance*)	BMW Motorrad offers right and left-side protectors that can be adapted to the rider's specific shape. They offer excellent impact absorption performance and have won countless consumer awards.
Tear resistance	Materials must offer a minimum resistance of 100 N/cm². (DIN EN ISO 13937-2:2000; tear resistance*)	The materials employed by BMW Motorrad must be able to withstand a force of at least 1000 N/cm².

INNOVATION

TEST CRITERIA	STANDARD	C.A.R.E. STANDARD
Water resistance	According to DIN standards, fabric with a water column of 1,300 mm is considered waterproof. (DIN EN 20811:1992; water resistance*)	The BMW Climate Membrane combines high water resistance (with a minimum 10,000-mm water column) with impressive breathability.
Practicality	Legal requirements do not call for motorcycle clothing to be tested in use at all.	BMW Motorrad riders assess the practicality of every item we produce over numerous rides (including endurance testing) in a range of weather conditions.

COMFORT

TEST CRITERIA	STANDARD	C.A.R.E. STANDARD
Fit and ergonomics	In general, only standardized sizes are available (DIN EN ISO 340*).	The sizes we offer are based entirely on the dimensions measured and supplied to us by our customers.
Height-adjustable protectors	There is no legislation that requires knee protectors to be height-adjustable.	Our protectors are height-adjustable as standard, ensuring the perfect fit for each rider.

QUALITY*

TEST CRITERIA	C.A.R.E. STANDARD
Resistance to fading	Garment samples are spread out under xenon light to test their resistance to fading. (Based on DIN EN ISO 105-B02:2002; resistance to fading*)
Resistance to rubbing	Each material is placed alongside a wet or dry testing fabric, and the two are rubbed together. The material's rub fastness is assessed based on the coloring of the test fabric. (Based on DIN EN ISO 105-X12:2002; resistance to rubbing*)
Color resistance against sweat	Textiles are placed alongside a testing fabric soaked in sweat, and the two are rubbed together (Based on DIN EN ISO 105-E04:2013; resistance to sweat*)
Oil resistance	Materials are tested for their resistance to oil and gas in the same way as the color fastness analysis. (Based on DIN EN ISO 105-X12:2002; resistance to rubbing*)
Velcro® resistance	Textiles are subjected to the Martindale abrasion test, at a force of 9 kPa over 4000 cycles, to assess their resistance to wear. (VDA 230-210:2008 based on DIN EN 530:2013; resistance to wearing*)
Resistance to washing	Textiles are sewn into a piece of test fabric, then placed in a beaker full of detergent solution and agitated. The test fabric is then dried, and the coloring assessed. (Based on DIN EN ISO 105-C06:2010; textile resistance to washing*)

* As there are no legal requirements for quality, we work from the relevant DIN EN ISO standards.

HERITAGE

The BMW Heritage Collection is a tribute to the birth of BMW Motorrad in 1923—a look back to a time when motorcycling was all about the essentials. The collection was inspired by the famous look of those first motorcycles: Strong black and fine white pin stripes on the teardrop tank. The striking, historic BMW emblem with copper lettering and border. Details like these are reflected in the entire collection,

starting with the classically cut leather jackets, the gloves and the boots. The materials are hard-wearing and meet the demands of the modern rider. It's the best of tradition and authenticity, blended with the latest in modern technology and materials—a great way to share the history of BMW Motorrad and your passion for motorcycling and classical design.

PUREBOXER LEATHER JACKET

NEW

Men

The classic cut of the PureBoxer leather jacket has an understated design, as was common in the early years of the last century. At the same time, it stands out due to a superb functionality that makes motorcycling comfortable and safe. The exclusive cordovan leather is characterized by its smooth surface, subtle grain and fine sheen. Regular wear lends the jacket a lovely patina. The copper-colored BMW badge on the sleeve is attached with two screws, as on classic BMW motorcycles, and can be replaced with the other logos supplied.

- High-quality, classic jacket made of 1.2-mm thick cordovan leather
- Removable thermal lining, 3 outside pockets, 2 inside pockets
- NP-Flex protectors on shoulders and elbows (EN 1621-1:2012)
- NPL back protector can be retrofitted
- Connector zip, 40 cm
- Additional men's size: Slim fit
- CE-certified

TWINSTRIPES LEATHER JACKET

NEW

Women

Women's and men's

The TwinStripes leather jacket, with its classic sporty design, features traditional decorative lines on the sleeves. It therefore picks up on special features that characterize the design of many other BMW motorcycles. Modern NP-Flex protectors on the shoulders and elbows are hidden under the leather.

- Classic sporty motorcycle jacket made of cowhide leather
- Completely lined, a total of seven pockets
- Connector zip: 40 cm
- NP-Flex protectors on shoulders and elbows (EN 1621-1:2012)
- NPL back protector can be retrofitted
- Ventilation zips
- Additional men's size: Slim fit, Comfort fit
- CE-certified

ROADCRAFTED DENIM JACKET AND JEANS

NEW

Women
Color: Black

Women's and men's
RoadCrafted jeans and denim jacket made of abrasion-resistant fabric have a classic denim look while subtly providing the highest degree of safety and functionality. The proportion of elastic fibers in the outer fabric ensures a good fit. The jacket has four outside pockets and two closable inside pockets. NP-Flex protectors on shoulders and elbows as well as an optional retrofit NPL back protector contribute to safety.

- Classic denim styles
- Abrasion-resistant and elastic denim fabric
- NP-Flex protectors on shoulders and elbows (EN 1621-1:2012), NPL back protector can be retrofitted
- Button row fasteners with additional zip underlay
- Two closable inside pockets
- Connector zip: 40 cm

PUREBOXER GLOVES

NEW

Men

PureBoxer gloves are made of high-quality and pleasantly soft buckskin with a classic design. They are durable and particularly comfortable to wear. The closure on the wrist, which can be adjusted in width by press studs, contributes to the necessary safety. This prevents the glove from unintentionally slipping off.

- Classic leather glove made of buckskin
- Index finger suitable for operating touchscreen devices
- Adjustable width at the wrist
- Small snap hook to attach the gloves to the belt
- CE-certified according to DIN EN 13594

COMMUNICATION SYSTEMS

Talking to fellow riders, making phone calls, listening to music—it's all possible with the BMW Motorrad Navigator connection and TFT display. The BMW Motorrad V3 and Fit-for-All communication systems with Bluetooth give the rider an exceptional listening experience thanks to easy operation and light weight. The systems enable wireless

voice communication between two helmets for rider and passenger, while the Bike-to-Bike communication module enables connection to up to six vehicles while you are on the road. All BMW Motorrad communication systems are mutually compatible and can be linked to the relevant interfaces of your motorcycle.

FIT-FOR-ALL COMMUNICATION SYSTEM

The Fit-for-All communication system merges functionality and slim design. This system is compatible with most helmets currently available on the market.

- Universal helmet communication system
- Rider and passenger communication system
- Can be enhanced to communicate with up to 6 motorcycles using Bike-to-Bike communication module
- Easy integration into the helmet
- Stream music using BMW-compatible audio sources, also to the passenger
- Telephony, providing a Bluetooth-compatible mobile phone has been connected
- Automatic interference suppression
- Battery life: depending on use up to 8 hours (560 mAh)

Price:
\$199

BIKE-TO-BIKE COMMUNICATION MODULE

In combination with a BMW communication system it is possible to communicate with a group of up to 6 vehicles that have also been equipped with Bike-to-Bike communication module when you are on the road.

- Universal helmet extension for communication systems for group communication
- Compatible with BMW Motorrad V3 and Fit-for-All communication systems
- One Bike-to-Bike communication module is required per motorcycle
- One rider and one passenger helmet can be connected per communication module
- Range between two Bike-to-Bike communication modules up to 300m in ideal conditions
- Range between two Bike-to-Bike communication modules up to 2km as part of a large group featuring six communication modules
- If the group moves out of range and the connection cuts out, the connection is automatically re-established upon detection
- Create communication groups and configure additional settings using a free app
- Battery life: depending on use up to 9 hours (1400 mAh)

Price:
\$378

SUITS

Motorcyclists place a lot of value on being protected from the elements at all times, come what may. From well-ventilated summer outfits and waterproof touring suits to leather one-pieces, BMW Motorrad offers perfectly designed solutions for every scenario. And with the Rallye suit, there's even a model for the most demanding globetrotters.

AIRFLOW SUIT

Women's and men's
Even on the hottest summer days, the AirFlow summer suit will keep you cool and fresh. Stretch and mesh inserts made of abrasion-resistant Dynatec material provide excellent ventilation and freedom of movement. In the color Black, this suit is also equipped with coldblack to prevent it from heating up.

- The perfect summer suit for warm weather
- Abrasion-resistant Dynatec outer
- Removable NP2 protectors at shoulders, elbows, back, hips and knees (height-adjustable at elbows and knees)
- Generous stretch Dynatec on the upper back for maximum freedom of movement
- AirTex mesh inserts on the chest, arms and thighs for optimum ventilation
- Mesh lining is extremely air permeable and elasticated
- Includes windproof cover jacket to wear in cooler weather; can be stowed in back pocket
- Reflective material on the jacket and pants
- Black version includes coldblack technology
- Dirt- and water-resistant finish
- Soft material on the collar, sleeve seams and pants waistband
- Velcro® fasteners to adjust width of pants waistband, sleeve cuffs and pants cuffs, and waist of the women's jacket
- Two built-in carry straps mean jacket can also be worn as backpack
- Two side jacket pockets, one back pocket, three inner pockets, two pants pockets (most pockets with zips)
- Extra: waterproof pouch in jacket pocket (e.g. for smartphone or wallet)
- Connector zip: 40 cm (all-around)
- Regular fit

GS DRY SUIT

Women's and men's
Take to the streets with the enduro look: This waterproof biking suit is the perfect companion for any tour, offering optimum weather protection for every adventure. In the heat of the summer, its unique ventilation system comes into its own, thanks to the robust CORDURA 500 material with highly breathable BMW Climate Membrane.

- Waterproof enduro suit, suitable for touring
- Outer made from robust CORDURA 500 / polyamide blend for optimum durability
- BMW Climate Membrane ensures suit is windproof, waterproof and highly breathable
- Enhanced protection on areas most susceptible to falls, with half-tone PU coating with ceramic particles
- Removable NP2 protectors at shoulders, elbows, knees (height-adjustable) and hips
- Includes long NP Pro back protector
- Unique watertight zips also open the membrane for direct airflow to cool the upper body
- Stretch inserts at the arms, knees and seat
- 3D air mesh lining at the back for optimal circulation
- Velcro® straps for adjustable fit on the sleeves, waist and pants hemline
- Two waterproof flap pockets
- One chest pocket, one sleeve pocket and two pockets each on the back and on the pants
- Leather trim on the interior at the knee for secure grip during off-road riding
- Reflective print on the arms and collar
- Connector zip: 40 cm

RALLYE SUIT

Men
The Rallye suit is extremely well ventilated and is ready to take on anything. The watertight insert can be worn both under and over the jacket for optimum protection from rain, wind and dirt. A real globetrotter, the suit is also made of abrasion-resistant ProTechWool and has several pockets for storing your personal items. The Rallye Competition jacket from the limited 40 years GS Collection is reminiscent of the legendary BMW R 100 GS with its historical color combination.

- Off-road suit with removable waterproof insert (available separately for Rallye Competition suit)
- Suitable for warm to moderate temperatures
- ProTechWool, a quick-drying, temperature-regulating performance fabric made from wool and polyamide with a carbon finish
- Wind and waterproof inner/outer jacket: Three-layer wear-resistant material ideal for keeping out rain and dirt—can be worn over jacket (available separately for Rallye Competition suit)
- Pants with wind and waterproof BMW Climate Membrane insert with Comfort Mapping: membrane qualities matched to different areas of the body
- Material reinforced in vulnerable areas
- Elastic, breathable mesh lining in the jacket
- Pants with elastic inserts
- Long leather trim on the interior at the knee for secure grip during off-road riding
- Hem edge reinforced
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Long NP Pro back protector
- Optional chest guard, attached with four press studs
- Sophisticated ventilation system using flaps on chest, zips on arms and legs, and large air outlet panel on back
- 3D air-mesh lining on the back to allow air circulation under back protector
- Velcro® and press studs for width adjustment
- Wide, easily adjustable leg openings
- Jacket: Six front pockets (two waterproof), one large and one small pocket on the lower back, two zipped inner pockets
- Easy-access TrinkPak Hydra pouch
- Four pants pockets
- Reflective material on the sleeves, back and pants
- Connector zip: 40 cm
- Regular fit

ENDUROGUARD SUIT

Women's and men's
With the EnduroGuard suit you are always prepared, whatever the weather. This professional enduro suit is the pinnacle of performance and practicality. The specially developed outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print) offers the highest levels of abrasion resistance. The three-layer laminate with BMW Climate Membrane offers perfect temperature regulation in this breathable, windproof and waterproof suit. A variety of ventilation zips and other clever details help create a bona fide 'comfort zone' for the rider even at warmer temperatures.

- Latest-generation off-road suit, waterproof
- Highly abrasion-resistant outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print), developed by BMW in partnership with Schoeller® Textil AG
- Three-layer laminate with BMW Climate Membrane: windproof, waterproof and highly breathable
- NP2 protectors at back, shoulders, elbows, hips and knees (freely height-adjustable)
- Coccyx protector retrofittable
- Unparalleled all-round ventilation thanks to a variety of vents; double front zip serves as an air vent
- Mesh lining in jacket and pants, plus 3D mesh lining in back; breathable and elastic
- Eight jacket pockets, seven of which are waterproof, men's jacket with an additional chest pocket, three pants pockets, includes one key case
- Wide sleeves and pants cuffs feature a windbreaker for optimum protection in inclement weather
- Integrated windbreaker in jacket offers effective protection against the wind and rain
- Waterproof storm hood integrated into the collar
- Leather on insides of knees for a firm grip on the tank when you're riding off-road
- Velcro® fasteners and press studs offer adjustable widths
- Reflective print on jacket
- Connector zip: 40 cm (all-around)
- Comfort fit
- CE-certified

ROADSTER SUIT

Men

The Roadster men's suit, made of highly fall- and abrasion-resistant nappa leather combines excellent wearing comfort with a safety package. A high proportion of elastic textile and leather stretch inserts in the shoulder, sleeve and knee areas guarantee optimum freedom of movement in any seating position.

- Sporty leather two-piece suit
- 100% cowhide nappa leather (approx. 1.3 mm)
- Removable NP Pro back protector
- NP2 protectors, removable, on hips, fixed protectors on the shoulders, elbows and knees
- Knee sliders, retrofittable
- 3D spacer fabric on the back for good air circulation
- Stretch-leather inserts for maximum comfort at shoulder, sleeve, kidney and knee zones
- Kevlar® stretch inserts for optimized fit and freedom of movement for arms and legs
- Highly elastic lycra lining on areas subject to a lot of movement
- Soft neoprene-edged collar
- Cuffs on arms and legs made of Kevlar® stretch material
- Pants waistband made of stretch fabric
- Two outside pockets and two inside pockets on the jacket

PRORACE SUIT

NEW

Men

With the men's ProRace suit you communicate sporty biker ambitions. This close-fitting tailored single-piece suit made of nappa leather offers a complete safety package with protectors in the shoulder, back, elbow, hip and knee areas. A hump optimizes the aerodynamics; stretch inserts guarantee freedom of movement.

- Tailored cut, sporty leather one-piece suit in BMW Motorrad M sport colors
- Highly abrasion-resistant cowhide nappa leather, approx. 1.3 mm
- Protectors on the shoulders, elbows, hips and knees, permanently sewn in
- Long NP Pro back protector, retrofittable
- Aerodynamic hump
- Knee sliders and sliders on the underarms and on the shoulders
- 3D spacer fabric on the back for good air circulation
- Numerous stretch inserts for maximum comfort and freedom of movement
- Perforated leather on the chest, back and thighs for excellent ventilation
- Long front zip, so suit is easy to put on and take off
- Arm and leg closure with zip fastener
- 1 inside pocket
- CE-certified

AIRSHELL JACKET

Women's and men's
Be prepared whatever the weather with the AirShell jacket. Thanks to the breathable, windproof and waterproof BMW Climate Membrane insert and the removable padded thermal vest, it can be worn all year round. Keep things light and airy at the height of summer, and warm and dry in the cooler months.

- Lightweight motorcycling jacket in eye-catching neon yellow to ensure optimum visibility in city traffic
- Highly abrasion-resistant material blend: color-fast polyamide/polyester blend
- Removable NPL protectors at the shoulders, elbows and back
- Windproof, waterproof and breathable insert with BMW Climate Membrane and a removable padded thermal vest
- Large, air-permeable mesh inserts made from abrasion-resistant AirTex
- 3D lining at the back for optimum air circulation
- Two zippered side pockets, one waterproof inner pocket, one pocket in insert
- Stud fasteners at waistband and Velcro® straps on adjustable sleeve cuffs and collar
- Reflective print on arms and shoulder area
- Collar closure trimmed in faux suede
- Connector zip: 40 cm

RACEFLOW JACKET

Men
All kitted out for summer thanks to the sporty RaceFlow men's textile jacket. Its high proportion of air-permeable mesh material ensures perfect ventilation of the torso and arms, even on hot days. The waist width is adjustable using two press studs. The standard equipment includes protectors at the shoulders and elbows.

- Sporty textile jacket for hot days
- Abrasion-resistant shell material with large insert of mesh material
- Double material thickness where susceptible in a fall
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Breathable 3D spacer fabric in back for optimum air circulation
- Two zippered side pockets on the outside, two inner pockets
- Stylish stand-up collar with a press stud closure
- Waist adjustable with two press studs
- Sleeve vent with zip and stud fastener
- Connector zip: 40 cm
- Regular fit
- CE-certified

CLUB LEATHER JACKET

Women's and men's
This sporty, modern Club leather jacket for men is suitable both as a motorcycle jacket and for leisure wear due to its casual style. It is made of high-quality abrasion-resistant cowhide and impresses with its excellent wearing comfort. Below the stylish surface, protectors are concealed at the shoulders and elbows. A back protector is retrofittable.

- Motorcycling and casual leather jacket
- Wear-resistant soft cowhide leather (approximately 1–1.2 mm thick), lightly waxed and tumbled
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- High collar with attractive and functional workmanship, can be closed with press stud
- Silhouetting blue and red leather highlighters on the shoulders and sleeves
- Full-length metal front zip
- Four or three zippered outside pockets (men and women) as well as two inside pockets and a smartphone pocket
- The "1978" inscription—the birth year of BMW Motorrad rider's equipment – is on the lining as a print and as embossing on the sleeve
- Connector zip: 40 cm
- Regular fit
- CE-certified

SANDIEGO JACKET

Women's and men's
Ride with style this summer—in a classic mix of waxed fabric and abrasion-resistant leather. You can even remove the shoulder and elbow protectors to wear it as a casual jacket around town. It's incredibly comfortable, with enough pockets for all your bits and pieces. Perfect for everyday use.

- Relaxed-cut motorcycle and leisure jacket for men and women
- Straight, hip-length fit for men; shorter tailored fit for women
- 1.0 to 1.2-mm abrasion-resistant cowhide sleeves and shoulders, with a slightly used look
- Rest of jacket is hard-wearing waxed fabric
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Inner zip on waist hem lets you remove shoulder and back protectors
- Full-length metal front zip
- Multiple chest and side pockets with zips
- Double-thickness fabric on back
- Intricate lining with 'Make Life a Ride' printed in large letters on the back; two inner pockets and one smartphone pocket
- Zip and stud fastener at the wrist
- Lapel collar closable with press stud

CLIMAPROTECT PANTS

Unisex
ClimaProtect pants are a practical companion when commuting. They are made of a polyamide and elastane material mix which together with BMW Climate Membrane offers abrasion resistance. They are elastic, waterproof and breathable. Thanks to long zip fasteners at the sides, they can be easily pulled over normal pants. Benefit from protectors at the knees and retrofittable hip protectors.

- Textile motorcycling pants made of three-layer laminate
- Abrasion-resistant material made of polyamide and elastane/stretch
- Windproof and waterproof and breathable thanks to BMW Climate Membrane
- Close fit
- Preformed leg for good seating comfort
- Long, side zip fastener for putting them on in shoes
- Removable NPL protectors on the knees (height-adjustment is very easy), optional NP2 protectors can be inserted at the hips
- Waistband with elastic
- No pockets
- Reflective print at bottom with BMW Motorrad lettering
- Connector zip: 40 cm

PRORACE BOOTS

Unisex

Waterproof, breathable ProRace boots not only impress with their Race look, but also with many practical details. Among other features, they offer side and heel guards, a gearshift lever protector, and soft suede leather on the inside of the bootleg for the best possible contact with the motorcycle. The insole is removable and washable.

- Sporty stylish boots with side and heel plastic sliders
- Replaceable side sliders, inserted and fixed with a screw
- Lightweight, touring-suitable entry-level boots
- Upper: synthetic leather, with napped leather inner (cowhide)

- Waterproof, windproof and incredibly breathable thanks to the BMW Climate Membrane
- Form-fitting shin guard
- Interior reinforcement at toes
- Shock absorbers at heel
- Shift-lever guard made of soft PU
- Boot leg liner of soft napped leather ensures better contact to the motorcycle
- Easier pulling on and off as well as individual adjustment at the foot by means of zip fastener with elastic band on the inside of upper
- Generous adjustment to a neat fit on the calf, thanks to wide Velcro® surface
- Stretch zones at the instep and heel
- Anti-slip rubber treaded sole

- Washable insole, removable
- Functional liner, perforated in the boot leg
- Loop to help carrying
- Large RACE inscription on the shin guard

ENDUROGUARD GLOVES

Unisex

The multifunctional enduro glove with twin-chamber technology is truly unique, allowing riders to easily switch chambers when weather conditions change. The PROOF moisture protection chamber is breathable, windproof and waterproof, with a lining for thermal insulation. The GRIP chamber features wafer-thin, abrasion-resistant kangaroo leather for a crease-free, tactile fit.

- Enduro gloves with twin-chamber technology, allowing riders to switch chambers when weather conditions change
- PROOF upper chamber is breathable, waterproof and windproof thanks to GORE-TEX® 2-in-1 technology with a lightweight, insulating pique jersey lining
- GRIP lower chamber made of highly abrasion-resistant kangaroo leather (approx. 0.7 mm), unlined and perforated for maximum grip
- Back of hand: blend of soft cowhide leather and Schoeller® Dynatec
- Highly abrasion-resistant ceraspace print on the knuckle protectors and ball of the hand
- Double-thickness leather on edge of hand
- Plastic hard shell knuckle protector with impact-absorbing foam padding
- Lightweight foam on finger backs and back of the hand
- Touchscreen-compatible index finger and thumb tips
- Rubber wiper lip on left index finger
- Mid-length cuff with Velcro® width adjustment
- Reflective material on the outside
- Special seams prevent pressure points on the fingers and palm of the hand
- CE-certified according to DIN EN 13594

PROWINTER GLOVES

Unisex

We warmly recommend these windproof and waterproof GORE-TEX® winter gloves, which hold their own even in the coldest, wettest weather thanks to their Thinsulate padding and soft fleece lining. The long neoprene cuff and specially developed finger construction also help to prevent chilly hands.

- Highly insulating waterproof winter gloves
- Palm: hydrophobic goatskin, double thickness on ball of hand and grip area of thumb
- Back: high-tech elastic Nyspan for maximum comfort
- Windproof, waterproof and breathable with GORE-TEX® membrane
- Insulating Thinsulate padding with added aluminium laminate on the back
- Lining made of brushed synthetic fiber (palm) and teddy fleece (back)
- High-tech, impact-resistant and energy-absorbing knuckle shells
- Touchscreen-compatible fingertips
- Rubber wiper lip on left index finger, suede wiping surface on left thumb
- Reflective strips on edge and on little finger
- CE-certified according to DIN EN 13594

\$159

ROCKSTER GLOVES

Unisex
The lightweight Rockster leather glove is ideal for warmer temperatures. Perforations on the sides ensure excellent air circulation, while the unlined palm allows for an unencumbered grip.

- Short leather glove for warm-weather riding
- Upper hand and palm made of soft, thick-grain goatskin leather
- Double-thickness leather on edge and palm of hand
- Knuckles and ball of hand with shock-absorbing Temperfoam
- Palm unlined for an unencumbered grip, back of hand lined with lightweight tricot
- Perforations between the fingers
- Strap with two press studs on wrist to adjust width on back of hand
- Touchscreen-compatible index finger and thumb tips
- CE-certified according to DIN EN 13594

FUNCTIONAL/ PROTECTIVE CLOTHING

True motorcycling fans don't let the weather ruin the ride: "too cold," "too wet" and "too hot" are foreign concepts. To ensure the ride goes on, even in extreme weather conditions, BMW Motorrad offers a wide range of functional head-to-toe clothing and safety-enhancing accessories.

VESTS	74
QUILTED JACKET	76
PCM JACKET	78
WET-WEATHER GEAR	80
KIDNEY BELTS	82
FUNCTIONAL SOCKS	83
SHIRTS	84
FUNCTIONAL UNDERWEAR	86
STORM HOODS & TUBES	90
PROTECTIVE EQUIPMENT	92

HIGH VIZ VEST

Unisex
The sleeveless HighViz vest is designed for particularly safety-conscious riders. Its neon yellow color and reflective applications on the chest and back considerably improve the rider's visibility. And because the vest is close-fitting, it does not flutter in the wind. The vest can be worn with any BMW Motorrad jacket.

- Bright yellow vest made of air-permeable polyester
- Standards-compliant and stylistically highlighted silver reflective application on the chest and back
- Excellent visibility in all weather conditions
- Close, flutter-free fit
- Matches all BMW Motorrad jackets
- Certified to EN 1150

Color:
Neon yellow

Sizes:
XS–4XL

Price:
\$45

COOL DOWN VEST

Unisex
This revolutionary functional vest uses evaporation to cool riders. When the vest is wet or damp, the HyperKewl system locks in the moisture and stores it for up to eight hours, providing a 43 to 54 °F temperature reduction for the wearer. It also keeps clothes dry.

- A cooling vest with HyperKewl functional fabric at the front and back
- Constant cooling effect through evaporation
- Outer material: nylon and polyester functional fiber
- Stretchy side sections made of mesh
- Front zip

Color:
Dark grey

Sizes:
XS–4XL

Price:
\$119

HEATUP VEST

Unisex
This lightweight heated vest can be worn under all BMW Motorrad jackets and provides a pleasant warmth during cooler times of the year. The heating elements are positioned according to the specific needs of the rider, while the vest's settings can be adjusted via the optional controller*.

- Heated polyester vest with slim-cut fit
- Breathable, moisture-wicking and windproof
- Five heating elements located in the chest, back and kidney areas
- Maximum heat output 35W at 12V
- Optional three-step controller available for heat-output regulation
- Plugs into on-board socket
- Lightweight fleece lining for optimum insulation
- High, insulating collar
- One inside pocket
- Parallel operation of 2 heating vests on the K1600 models possible with optional Y-cable

Color:
Black

Sizes:
XS–3XL

Price:
Vest: \$249
Controller: \$59
Spiral cable: \$29
Y-cable: \$19

* All models, except the K 1600 GTL and K 1600 B, can only be operated with one heating vest. If two heating vests are operated simultaneously, the power supply is automatically interrupted, resulting in both heating vests failing.

RIDE QUILTED JACKET

Women's and men's
The breathable Ride quilting jacket is especially thin, meaning it can be worn under all BMW Motorrad jackets. Thanks to the stylish, slim-fit design, it can also be worn by itself.

- Practical quilted jacket, thin and lightweight, comfortably warm, breathable
- Can be worn alone or with any Motorrad motorcycling jacket
- Polyamide upper
- Thin quilting with PrimaLoft (80g), double-thickness at elbows and shoulders
- Soft shell stretch inserts at the side for a good fit
- Loop at collar to attach to motorcycling jacket
- Zip at the lower back allows you to use the 40-cm connector zip on motorcycling jackets and pants
- Water stop on the bottom hem and collar to avoid a suction effect in wet weather
- Close-fitting collar for maximum comfort
- Two zipped outer pockets, PackAway inner pocket (small pack size)
- Biker look with quilting at elbows and shoulders
- Figure-hugging cut, women's jacket features additional tapering at the waist
- Regular fit

PCM JACKET

Unisex
Whatever the mercurial spring and autumn weather brings, this jacket’s innovative phase change material will keep you warm, dry and comfortable. The multifunctional jacket can not only be worn underneath any motorcycling jacket—its removable sleeves mean it can also be worn by itself as a vest.

- Highly functional mid-layer that can be worn both on and off the bike
- Blend of soft shell, stretch and Schoeller® PCM fabrics
- Schoeller® PCM: active temperature regulation and dynamic climate control
- Graphical material description on the left pocket pouch (inner)
- Removable sleeves offer the perfect fit, by itself or as a vest under a motorcycling jacket
- Two zipped outer pockets on sides
- Opening at the lower back allows you to use the 40-cm connector zip on motorcycling jackets and pants
- Loop at collar to attach to motorcycling jacket
- Perfect for temperatures between 50 °F and 68 °F
- Regular fit

RAINLOCK WET-WEATHER SUIT

- Unisex**
There's no such thing as braving the rain with this two-piece wet-weather suit—it comes into its own when the heavens open. The windproof and waterproof material is heat-resistant at the inner leg and anti-slip at the seat, which makes it the ideal protective gear for any eventuality.
- Two-piece rain suit, windproof and waterproof
 - 100% nylon with waterproof PU coating
 - Non-slip material on seat; heat-resistant material on inner leg
 - Adjustable hood in collar (removable)
 - Front jacket zip with waterproof labyrinth design
 - Rubber-lined jacket seams to prevent the jacket from riding up
 - Jacket seam fitted with a pull-cord for width adjustment
 - Large arm openings make it easy to put on and remove gloves
 - Pants with elastic waistband
 - Long leg zips make the pants easy to put on, lined with pleated material to help prevent water leakage
 - Velcro® at the arm and leg cuffs
 - Two outer jacket pockets with eyelets for water drainage, one waterproof inside pocket
 - Reflective print on legs, arms, back and chest
 - Lightweight, packs down to a small size

PRORAIN WET-WEATHER OVERSUIT

- Unisex**
Never be at odds with the weather again. In light drizzle or pouring rain, this jumpsuit with an integrated storm hood has you covered. The waterproof material is heat-resistant on the inner leg, non-slip in the seat, and comes with high-visibility reflective prints.
- One-piece rain suit, wind- and waterproof
 - 100% nylon with waterproof PU coating
 - Non-slip material on seat; heat-resistant material on inner leg
 - High collar prevents rain leaking between suit and helmet, with integrated storm hood
 - Large inner chest pocket
 - Long front and leg zips make it easy to put on
 - Front zip with waterproof labyrinth design
 - Large reflective prints
 - Lightweight, stows in small pouch with strap and clip closure

HYDROSOCK FUNCTIONAL SOCKS

Unisex
Better safe than sorry. Waterproof functional socks are best paired with the GS Pro boot or non-waterproof motorcycling boots for riding in the rain or off-road. Made with a three-layer laminate, the highly elastic four-way stretch material makes these knee-high socks perfect for dry feet whatever the weather.

- Waterproof performance socks
- Ideal for wearing with non-waterproof (enduro) boots in wet conditions
- Worked as a 3-layer laminate
- Outer material: a highly elastic mix of polyester and Spandex
- Laminated with waterproof BMW climate membrane
- Liner made of knitted performance polyester, odor-neutralizing and moisture-regulating
- Seamless bonding technology for easy fit and maximum comfort
- Double-bonded edges sealed inside and out
- Reinforced fabric used for parts of the soles
- Four-way stretch
- Comfortably form-fitting

Easy Tube Tour

BACK PROTECTOR VEST

Unisex

The protector vest is a comfortable alternative to a back protector. Thanks to generous coverage of the spine, the shoulder and kidney area, and the chest, it demonstrably offers particularly effective protection against injuries. Body heat helps it to achieve an optimal fit, while remaining highly breathable.

- Vest with integrated Cross back and chest protector.
- Optimum protection reduces the risk of injury
- Outer material made of polyester and Lycra (tricot)
- Innovative Cross protectors from KOMPERDELL on back and chest: flexible multi-layer and multi-chamber design, supple fit thanks to Dual-Density foam, breathable and lightweight.
- High breathability due to generous perforation
- Good impact absorption properties
- Amply sized shielding for the spinal column, the shoulder-blades and kidney area, and the chest
- Side front zip fastener to easily put it on and take it off
- Rolled neckline and armhole due to double-layered design of the vest, making it especially comfortable and flexible
- Back protector certified as per DIN EN 1621-2, Level 2.
- Chest protector certified as per DIN EN 1621-3, Level 1.

Color:
Black/yellow

Sizes:
S–XL

Price:
\$219

Special order only.

BACK PROTECTOR

Unisex

The back protector reduces the risk of injury to the spinal column, shoulders and kidney area. After buckling it on, the rider wears the protector underneath their motorcycle jacket. It is particularly lightweight and breathable. Body heat then ensures a perfect fit, as if it were tailor made.

- Strap-on protector with integrated, freely adjustable kidney belt
- Optimum protection reduces the risk of injury

- Innovative Cross protector by KOMPERDELL on back: flexible multi-layer and multi-chamber design, supple fit thanks to Dual-Density foam, breathable and lightweight.
- Upper: blended fabric made of polyester and elastane
- Ergonomically shaped shoulder straps, padded and height-adjustable; with integrated press studs for retrofitting the BMW Motorrad chest protector
- High breathability due to generous perforation

- Good impact absorption properties
- Amply sized shielding for the spinal column, the shoulder-blades and the kidney area
- Very light in weight
- Back protector certified as per DIN 1621-2, Level 2.

S–XL

Price:
\$179

Special order only.

BAGS/ ACCESSORIES

Whatever the weather, there will always be riders out and about—which is why the right equipment is absolutely essential. No matter the conditions, there's a suitable soft-luggage solution in the BMW Motorrad range. Take the watertight roll bag, for example. It attaches quickly and easily to every BMW motorcycle, and it's equally suitable for day trips or lengthy tours.

FUNCTION BACKPACKS	96
GIANT BAG	97
LUGGAGE ROLL	97
RIDE HIP BAG	98
HELMET BAG	98
SOFTBAGS	99
TRINKPAK HYDRA	100
FUNCTIONAL SUNGLASSES	100

FUNCTION BACKPACK

An innovative backpack with a partitioned main compartment. The bag has a maximum capacity of 30 liters, a waterproof inner pouch and a whole host of storage options. But the real pièce de résistance is the carry strap stored in the back that allows you to secure the backpack directly to your motorcycle.

- High-quality motorcycling backpack for touring
- Capacity: expandable from approx. 30 to 35 liters
- Upper: Made of hard-wearing tarpaulin and nylon
- Waterproof main compartment with laptop section (up to 15 inches)
- Can be expanded for helmet
- Four outer pockets, inner mesh compartment
- Divisible main compartment, lower section can be accessed separately
- Ergonomically shaped back section
- Adjustable shoulder straps (padded), waist strap (removable) and chest strap
- Travel-bag-style handle
- Fixing straps for additional luggage on outside
- Can be attached to a bike as a luggage roll

Color:
Grey/white/red/black

Price:
\$179

SMALL FUNCTION BACKPACK

The small Function backpack is the perfect size for day trips and the daily commute. Rain showers are no problem for this bag thanks to its waterproof main compartment with an integrated laptop sleeve (up to 15"). The back of the Function backpack also features a pouch for the TrinkPak Hydra.

- High-quality, functional backpack
- Waterproof main compartment with roll closure, includes laptop sleeve (up to 15") and small inner pocket
- Four external pockets, one of which is in the lid, featuring splash protection (zip fasteners with rubber seals)
- Pouch for the TrinkPak Hydra on the back (approx. 2 liters), closable with a press stud
- Mesh lining in the cover flap
- Ergonomically shaped back section
- Adjustable shoulder, chest and waist straps
- Carry straps on the front and top
- Reflective material on the shoulder straps, cover flap and front
- BMW Motorrad logotype on front
- Upper: water-resistant, easy-care polyester blend
- Inner lining: polyamide blend
- Weight approx. 550 grams
- Dimensions (HxWxD): approx. 40x30x16 cm
- Capacity: approx. 20 liters

Color:
Grey/white/red/black

Price:
\$129

GIANT BAG

The sturdy travel bag (with a 90-liter capacity) offers more than enough room for all your gear. The two-part inner compartment features a helmet compartment, boot bag and elastic cross straps. A telescopic handle and low-friction castors make it the ideal mobile storage solution.

- Sturdy travel bag designed for motorcycle riders
- Approx. 90 liters, holds a complete set of rider equipment
- Hard-wearing outer material, reinforced back and base
- Lockable main compartment, interior divided into two
- Padded helmet compartment, foldaway partition
- Zippered outer compartment, two large compartments in lid
- Easy handling: lightweight, with low-friction castors
- Four compression straps
- Includes separate boot bag

Color:
Grey/white/red/black

Price:
\$219

LUGGAGE ROLL

The waterproof Luggage Roll has a large opening, making it easy to pack whatever you might need to take with you. The small mesh outer pocket and waterproof zipped inner pockets provide space for less bulky items. Adjustable compression straps for volume adjustment. The luggage roll also comes with an adjustable and detachable shoulder strap plus a padded carry handle.

- Waterproof luggage roll
- Capacity: approx. 50 liters
- Outer: hard-wearing tarpaulin, textile-look base
- Removable, 3D-formed EVA base plate
- Large opening for easy packing
- Detachable shoulder strap, carry handle
- Includes adjustable straps with snaplock buckles for easy securing
- Reflective material on front and sides, BMW Motorrad reflective print

Color:
Dark blue

Price:
\$199

RIDE HIPBAG

Perfect for day trips, the Ride HipBag offers plenty of room for your wallet, keys and more. A waterproof main compartment ensures rain doesn't dampen the fun.

- High-quality hip bag for day trips on and off the bike
- Waterproof main compartment with full-length two-way zip fastener
- Inner bag with a roll closure keeps the main compartment completely dry
- Small mesh bag (left) plus three small zipped outer pockets
- 3D mesh lining at the back for optimal air circulation
- Freely adjustable waist strap, carry handle
- Decorative reflective print (Boxer engine) on the front
- BMW Motorrad logotype on cover flap
- Functional outer material made from polyester with a fabric-look finish, water-resistant and easy-care
- Dimensions (HxWxD): approx. 18x20x11 cm
- Capacity: approx. 3 liters

Color:
Black

Price:
\$49

BMW MOTORRAD HELMET BAG

The BMW Motorrad Helmet Bag is the perfect way to transport and store your helmet. The rigid base protects the helmet even when set down, while vents guarantee the best possible air circulation.

- Premium helmet bag with a classic design
- Ideal for transporting and storing motorcycling helmets
- Rigid base with integrated vents
- Padded main compartment accessible via a long, double-zip closure
- Soft fleece inner lining helps prevent scratches on the helmet and visor
- Practical outer pocket for small bits and pieces, e.g. keys; closable with a stud fastener
- Robust carry handles and detachable shoulder strap with high-quality metal clasps
- BMW Motorrad logotype on front
- Functional upper material made from polyester with a fabric-look finish, water-resistant and easy-care
- Dimensions (HxWxD): approx. 26x36x21 cm
- Capacity: approx. 20 liters

Color:
Black

Price:
\$79

LARGE SOFTBAG

The large, high-quality softbag has a waterproof 50-liter main compartment. Capacity can be expanded by up to 5 liters with patch pockets. The sturdy EVA base fits all BMW Motorrad models and includes a non-slip coating. With quick fastening system.

- Rear bag made of flexible material
- Capacity: expandable from approx. 50 to 55 liters
- Waterproof main compartment, four water-resistant outer pockets
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

Color:
Dark grey

Price:
\$239

SMALL SOFTBAG

Need even more room? This 30-liter softbag can be expanded by an additional 5 liters. It has a watertight main compartment made of hard-wearing, easy-care material, and is easy to attach to the luggage grid or the pillion seat using the supplied fasteners.

- Rear bag made of flexible material
- Capacity: expandable from approx. 30 to 35 liters
- Waterproof main compartment, four water-resistant outer pockets.
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

FUNCTION SUNGLASSES

These functional sunglasses developed especially for bikers guarantee flawless views along your entire route, thanks to their three, highly curved and interchangeable plastic lenses, which allow you to adapt your UV protection to the light and weather conditions.

- Stylish and lightweight performance sunglasses
- Interchangeable plastic lenses for different weather conditions:
Brown = high-contrast with an anti-fog coating
Grey = lightly reflective with a scratch-proof coating
Clear = anti-reflective, scratch-proof coating
- Dark-colored glasses offer 100% UVA, UVB and UVC protection, even in bright sunlight
- Designed to fit comfortably inside your helmet
- Curved, close-fitting design fit provides slipstream protection
- Black plastic frame with Anthracite gummed-plastic inserts
- Soft plastic nose pads prevent pressure discomfort
- Includes BMW Motorrad-branded carry case and microfiber pouch

Color:
Black/anthracite

Price:
\$99

NOTES

MIX AND MATCH / HOW TO WORK OUT YOUR SIZE

Sizes of designs with all-round zips can be combined as follows: (In other size combinations, only the 40 cm connecting zip can be used—not the all-round zip.)

WOMEN		MEN	
Suits (excl. EnduroGuard)	EnduroGuard suit	Suits (excl. EnduroGuard)	EnduroGuard suit
34	34/36/17/18/72	46	46
36/18/72	38/40/19/20/76/80	48/50/98/102	48/50/24/25/98

		64/66/31/32	64/66/32

Ask your BMW Motorrad dealer for details on how to combine previous and new rider equipment.

How to work out your size

It's very important that your motorcycle suit is a good fit, not least because if it's too tight or too loose, it can affect your concentration. And if you're distracted, this affects your safety on the road.

Jackets and pants also have to sit right on the wearer. Your sleeves and pants legs shouldn't ride up, because if they do, it's not just a safety issue—it also means you're not properly protected against the elements.

That's why the cut of all BMW Motorrad suits is specially designed for motorcycling use, and why they all feature plenty of expandable sections, opportunities for adjustment and other clever details. To make sure your suit is a perfect fit, all of its dimensions have to be exactly right. We know that riders come in many different body shapes, so our suits are available in over 40 different sizes.

To find the one that's right for you, grab your tape measure and follow these simple instructions.

A Height

Stand barefoot beside a door frame. Place a book on your head, and hold it in position. Mark the position of the book on the door frame and measure from the floor.

B Chest

Take this measurement while wearing a shirt or a lightweight pullover. Pass the tape measure under your arms and measure around the broadest part of your chest and over the shoulder blades.

C Waist

Measure around your shirt, just above the top of your pants. Stand in a neutral position and don't hold in your stomach—that way you'll ensure the pants sit comfortably.

D Hips

Measure around your body, above your pants and the widest point of your hips.

E Side length

Measure the distance down the outside of your leg, from the waist of your pants to the sole of your foot.

F Step length

Measure the distance down the inside of your leg, from the crotch seam to the sole of your foot.

IMPORTANT:

These tables are intended as a guide. They show the body measurements on which the BMW Motorrad rider equipment collection is based.

BMW Motorrad offers two types of fit according to how each item is used by riders:

Comfort fit:

More generous cut offering greater freedom of movement

Regular fit:

Closer, anatomical fit

SIZE CHARTS

Inner leg in cm	77	82	87	92							

AirTex
Made of resistant, net-like Dynafil, AirTex allows air to flow freely, maintaining comfortable air circulation even at high temperatures. It is extremely light, yet offers all the safety you'd expect from a motorcycling jacket, and is ideal for hot-weather riding.

Aniline leather
Leather dyed exclusively with soluble pigments that are not layered with an overcoat or pigment coating, meaning the leather stays as breathable as it was on day one.

Breathability
Technically defined in terms of resistance to evaporating heat transfer (RET). The lower the RET, the more breathable the material.

Azo dyes
Azo dyes may not be used to dye outer materials, because they can break down into carcinogenic amines.

Ventilation
Select materials and systems are used to improve air circulation and temperature regulation.
Categories:
1 arrow: classical systems/zips to assist ventilation
2 arrows: specific materials used for improved ventilation
3 arrows: maximum ventilation

BMW Climate Membrane
A functional membrane that meets BMW standards and is breathable, waterproof and windproof.

Carbon
High-strength chemical fiber that is 30% lighter than glass fiber and superior in terms of safety performance.

CE test mark
The CE (Communauté Européenne) mark indicates that the product complies with European Union safety directives.

ceraspace print
Ceraspace technology offers unparalleled protection thanks to its unique composition—a polymer matrix containing integrated ceramic particles. This specially developed ceramic is extremely durable and resistant to high temperatures. Selective 3D printing significantly enhances abrasion-resistance without impairing flexibility or breathability.

coldblack
Treatment for dark material that reflects the sunlight and protects against UV rays, keeping suits cooler for longer.

CORDURA 500
Nylon yarn consisting of 100% polyamide. The manufacturing process involves respinning and weaving the cut polyamide fibers. Their melting point is 410°F.

Expanding pleats
The outer material is sewn onto the stretch fabric in a corrugated form. This allows the material to stretch, while maintaining its tear-resistance.

Design
The characteristics of BMW design include the use of classic shapes and colors. Most important principle: form follows function.

DuPont Coolmax
DuPont Coolmax consists of hollow fibers which transport humidity to the outside very quickly by capillary action, making the material dry 50% faster than cotton.

Dynafil
A highly tear-resistant polyamide yarn that's even more robust than Cordura 500/700 and resistant to high temperatures.

Dynatec
Fabric made of Dynafil. Tear-resistant and extremely robust, its melting point is 554°F.

Glass-fiber reinforced plastic (GFRP) / carbon-fiber reinforced plastic (CFRP)
The individual fibers (aramid, carbon, glass fiber) can be mixed in varying proportions as required. By changing the orientation and position of the fibers, different characteristics can be achieved—for example: low weight, high strength, high rigidity, low heat expansion, effective insulation and outstanding safety performance.

GORE-TEX®
A membrane made of Teflon™ (polytetrafluorethylene). Countless microscopic pores prevent the penetration of large water droplets while allowing the much smaller water vapor molecules to pass through. The branch-like structure of the membrane means that it is also windproof.

GORE-TEX® X-TRAFIT
In this specially designed three-layer construction, the glove lining is securely bonded to the membrane, which is then bonded to the upper, guaranteeing the perfect fit and the best possible grip. This also prevents slippage, which means the gloves can be quickly and easily removed, even with sweaty hands.

Hydrophobic treatment
A treatment which renders leather water-resistant. BMW uses the vat immersion technique. During this process, only the leather fibers are coated to ensure the pores stay open and the leather remains breathable. Depending on use, dry cleaning ensures the garment maintains its waterproof performance over several years.

HyperKewl system
The HyperKewl water management system absorbs and stores moisture, then gradually releases it via evaporation. This has a cooling effect that reduces heat by 43 to 54°F compared with the ambient temperature. This means the body stays cooler and is better able to perform in challenging conditions.

Insert
A removable membrane allowing a wide variety of uses in different climates. For protection, it is embedded in a very lightweight fabric on the top and bottom, and the first layer of the jacket will get wet if it rains.

Kangaroo leather
Boasting finer skin fibers, a tighter grain and denser skin structure, kangaroo leather outperforms cowhide leather in terms of abrasion and tear resistance.

Keptotec
A blend of Kevlar® and PA fibers, which enhances Kevlar®'s already excellent stretchability and abrasion resistance. Used to reinforce those areas most at risk in a fall, such as the elbows, shoulders, knees and thumbs.

Laminate
A layered structure of various materials created by thermal adhesion (the adhesive is usually applied in spots), and particularly suited for use with all-weather membranes. Can also take the form of a lining laminate or three-ply laminate, and does not always need to be thermally attached to the outer material.

Leather
Because all leathers are not equal, we only use the very best. With a minimum thickness of at least 1.2 mm for our suits, and often much more, they offer exceptional abrasion resistance as a result.

Material strength
The specific combination of materials and protectors used in each product determines its abrasion resistance, tear resistance, impact resistance and burst strength
Categories:
1 star: average
2 stars: good
3 stars: exceptionally hard-wearing in all areas

Motorcycle-specific cut
This cut takes account of the body's contours in the riding position. The tops of the sleeves are further forwards, the sleeves and legs are angled, and there are numerous other special design details.

Nappa leather
The upper surface of the hide. Smooth and slightly shiny, worked to a soft leather with a fine grain.

Nickel-free accessories
All BMW Motorrad buttons and zips are nickel-free to protect the skin.

Nubuk leather
A highly breathable leather with a slightly roughened surface, resulting in a firm grip.

Nyspan
A bi-stretch fabric made from comfortable elastic yarn that distorts and regains its original shape with ease.

PCP/CP
Pentachlorophenol (PCP) is banned under the German prohibited chemicals order of 14 October 1993, though it may be used in concentrations of up to 5 mg/kg in leather processing.

3-Perform
Abrasion-resistant, three-layer elasticated laminate that is windproof, waterproof and breathable thanks to the BMW Climate Membrane.

Phase change material (PCM)
The micro capsules in phase change material react to temperature changes in the environment and your body by changing its state of matter at a certain temperature. If the body/ambient temperature increases, the capsules store excess heat. If the temperature drops, they emit this absorbed heat.

PORON
A foam that comes in a variety of densities and specifications. Our gloves use specially designed foams that provide a high level of impact protection and keep their shape over a long period.

ProTechWool
A unique blend of wool and polyamide. It's breathable, quick-drying and heat-conducting.

ProtectionGuard
This material combines the looks, quality and technical properties of raw leather with the easy maintenance of a performance fabric.

Protectors
The protectors used by BMW Motorrad are regularly put back on the developer's table and upgraded for every conceivable motorcycling scenario. The protectors are certified according to DIN EN 1621. All protectors are available in different sizes to ensure all riders can choose what suits them. Your BMW Motorrad dealership will be happy to help you work out your size.

NP2: high-level impact absorption, excellent comfort, designed especially for touring, adventure and sports gear, certified according to DIN EN 1621 Level 2 (highest level of protection).
NP Pro / NP Pro back protector (long): will replace the previous NP2 back protector in new suits beginning in 2018. Designed with six layers for optimum fit and flexibility, it features perforations for maximum comfort even in high temperatures. Certified according to DIN EN 1621 Level 2 (enhanced protection). The long version measures around 7 cm longer and is available for adventure and touring suits, as well as for the Rallye and GS Dry suits for the first time.

NP Pro chest protector: can be retrofitted to the Rallye suit. It can be secured with press studs in the front and is height-adjustable (two positions). Designed with several layers and perforated for enhanced ventilation. Includes a plastic splint in the middle area for better impact-absorption. The trapezoid protector is available in two sizes. Your BMW Motorrad dealership will be happy to help you work out your size.
NPL: lighter protection designed especially for the urban environment, offering high levels of comfort and excellent impact absorption, certified according to DIN EN 1621 Level 1.

Schoeller® PCM
Derived from space research, this material features special paraffin capsules that allow it to store heat when warm and release it when the temperature drops. This means it can minimize fluctuations in body temperature, keeping the rider comfortable. The material is at its most effective between temperatures of 41 °F to 77 °F.

Seamless bonding technology
This process involves placing two pieces side by side, then covering the join with tape and pressure-bonding them with hot glue to create a flat, elastic join rather than a sewn seam.

Serafil
Highly tear-resistant safety yarn used in all BMW Motorrad motorcycle suits.

Shape-Shift™ technology
This forming technology uses a partition in the reservoir to keep the drink tube flat even when the two-liter container is full.

Safety – active and passive
Active safety measures are designed to prevent accidents, for example by using reflective material for good visibility. Passive safety features aim to minimize the effects of an accident, for instance by employing impact-resistant protectors and outer materials.

Z-Liner
Here, the membrane is like a lining "suspended" between the outer material and the lining itself.
